Quando ho ricevuto dalla consigliera di parità della provincia di Grosseto la pubblicazione "Parole" ho pensato che per come era strutturata fosse uno strumento molto utile.

Ho subito pensato alle numerose lavoratrici straniere presenti sul territorio bresciano impiegate come colf, badanti per gli anziani o tate per bambini.

Donne arrivate da Paesi stranieri, che il più delle volte non conoscono l'italiano.

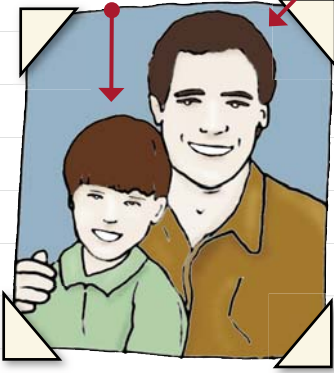

Sperando di rendere meno faticoso l'apprendimento della nostra lingua partendo da rappresentazioni basilari della stessa nella vita quotidiana, che per loro è anche professionale, con l'intento di agevolare il loro inserimento lavorativo presso le famiglie, ho assunto l'onere della pubblicazione della stessa che consegnerò per la divulgazione ai Centri per l'Impiego, ai Sindacati e alle Associazioni.
